

FIND OUT HOW YOU COULD SAVE A LIFE

Bek,
transplant
recipient

Rebekah “Bek” Southard (Brown) was originally born in Chester, MT and now resides around Terre Haute, IN with her husband and two young children. In January of 2023, Bek was diagnosed with Primary Myelofibrosis (PMF) and quickly learned that her only option for a potential cure was a stem cell transplant. Luckily, her brother Josh was a match and Bek received her transplant on August 29, 2023 and has begun her healing journey. Join the Registry in support of Bek and other patients in need at our upcoming event!

DATES Sept. 12 & 13, 2023

TIME 9:00AM - 6:00PM

LOCATIONS Indiana State University
(1) The Arena/H&HS Building, along the “Spine”
(2) The Fountain
