

Graduate Certificate

Virtual Instruction

Offered: Starts Summer 2020

Duration: 2 Semesters

Completion: December 2020

Method of delivery: Online

Our Virtual Instruction Certificate will provide you the tools to adapt your teaching strategies to fit virtual learning environments. You will produce instructional materials; fuse instructional theory into effective multimedia production and perform practical analyses of innovative instructional strategies. At the end of these 4 courses, taken in 2 consecutive semesters, you will have the basic tools to effectively and successfully deliver your courses virtually.

SUMMER 2020

CIMT 541—Virtual Learning Environments

(3 credits)

This course covers the management, design, and support of virtual learning spaces and the enabling of technologies that tie the learning environment together.

CIMT 543—Production of Instructional Materials

(3 credits)

The planning, preparing, producing, and evaluating of media for use in an instructional environment.

FALL 2020

CIMT 625—Multimedia Design for Interactive Learning

(3 credits)

Effective applications of multimedia and instructional design for interactive learning.

CIMT 665—Instructional Innovation

(3 credits)

This course is designed to provide a practical analysis of innovative instructional strategies that contribute to effective teaching and student learning.
