Department of Educational Leadership

SAHE 680: Professional Seminar in Student Affairs and Higher Education

We are pleased to invite you to join us for innovative educational workshop sessions hosted by the Student Affairs and Higher Education (SAHE) graduate program. These student capstone presentations are the culminating experience for the program and will showcase the student's knowledge, expertise, and passion for the student affairs profession. We have been working with these students on their capstones over the course of the semester and are pleased for them to showcase their passions for the field.

Capstone presentations will occur using Zoom. You can access the sessions by clicking on the link provided on the page for each day's presentations.

We ask that you log in a few days early to ensure that you are able to access the virtual meeting space. If you experience issues, please contact 812-237-2910. There will not be troubleshooting options available to guests the day of the presentations as this could distract the student presenters.

Thank you for all the support you have provided to these SAHE scholars. We could not provide the rich experience without your guidance, mentorship, and encouragement.

Dr. Amy E. French  
*Assistant Professor of Educational Leadership*  
*Program Coordinator, SAHE*
