University Hall Theatre

Indiana State University

*Event is open to faculty, staff, and students*

*Light refreshments will be served in the  
University Hall Atrium following the presentation*

Annette Breaux is one of the most entertaining and informative authors and speakers in education today.

A former classroom teacher, curriculum coordinator and teacher induction coordinator, Annette's areas of expertise include student achievement, classroom management and new teacher induction. Her writings and presentations generate instant impact on the relationships between teachers and students, and her message is one of practicality and personality in teaching and in touching students' lives.

Annette's down-south warmth, infectious humor, and ability to touch the hearts of educators invariably bring audiences to their feet. Teachers will walk away with user friendly information, heartfelt inspiration, and a much-needed reminder of the value of their profession!

This event is sponsored by the Bayh College of Education in partnership with the Vigo County School Corporation
