SAHE 680: Professional Seminar in Student Affairs and Higher Education

We are pleased to invite you to join us for innovative educational workshop sessions hosted by the Student Affairs and Higher Education (SAHE) graduate program. These student capstone presentations are the culminating experience for the program and will showcase the student's knowledge, expertise, and passion for the student affairs profession. We have been working with these students on their capstones over the course of the semester and are pleased for them to showcase their passions for the field.

For on campus SAHE students, the capstone presentations will occur in Hulman Memorial Student Union, Room 421 on April 19. For distance students, capstone presentations will occur using Zoom on April 12 (link found below).

Thank you for all the support you have provided to these SAHE scholars. We could not provide the rich experience without your guidance, mentorship, and encouragement.

Sincerely,

Dr. Amy E. French
Assistant Professor of Educational Leadership
Program Coordinator, SAHE

Student Affairs and Higher Education Capstone Presentations
